EDUCATION

Maharishi Dayanand University

Bachelor of Computer Application

Rohtak, Haryana

August 2022 – June 2025

EXPERIENCE

Full Stack Developer

Feb 2025 – Present

Brandmaska

On-site

- Built Diffrun from scratch, an AI-powered personalized storybook platform, owning the product lifecycle from system architecture to production deployment on AWS.
- Developed and scaled the application using Next.js, FastAPI, ComfyUI, MongoDB, and TypeScript, integrating generative AI workflows into a production environment.
- Engineered a responsive and performance-optimized UI, enhancing usability and improving overall application speed and SEO visibility.
- Strengthened backend reliability by handling edge cases, optimizing REST APIs, and ensuring stable real-world user flows.

Full Stack Developer Intern

Oct 2024 – Jan 2025

VidyaInterna Hub

Remote

- Converted Figma designs into responsive, production-ready React interfaces while optimizing layout structure and component reusability.
- Improved frontend performance and maintainability through clean architecture and structured state management.
- Expanded into backend development by building RESTful APIs and understanding microservices-based architecture using Node.js and Express.
- Collaborated using Git and GitHub workflows, gaining hands-on experience in version control and team-based development.

PROJECTS

Diffrun | FastAPI, ComfyUI, Next.js, AWS, MongoDB, TypeScript, Tailwind CSS

[Live Site](#)

- Built and deployed a production-grade AI platform that generates personalized storybooks from a single image using generative AI pipelines.
- Integrated scalable FastAPI services, AWS infrastructure, and secure payment workflows to enable real-world monetization.
- Processed 8,000+ real customer orders, establishing a revenue-generating AI product in a live production environment.

VisionForge | Next.js, Flux, TypeScript, Tailwind CSS, Cloudinary, MongoDB, Framer Motion

[Live Site](#)

- Engineered an AI-driven SaaS platform for high-quality image generation with user authentication, profile storage, and download capabilities.
- Designed responsive, mobile-optimized interfaces with dynamic animations for engaging cross-device experiences.
- Launched publicly on Product Hunt, achieving #36 worldwide ranking with 17+ upvotes, demonstrating early product validation.

AI Learn | Next.js, Google Gemini AI, TypeScript, Tailwind CSS, MongoDB

[Live Site](#)

- Developed an AI-powered learning platform that generates simplified explanations and adaptive MCQs using Google Gemini AI.
- Implemented quiz history tracking and structured AI response formatting to enhance engagement and content consistency.
- Optimized backend request handling and prompt structuring, reducing API latency by 20% for faster response delivery.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, Tailwind CSS, Redux Toolkit, Framer Motion, Responsive UI/UX

Backend: FastAPI (Python), Node.js, Express.js, REST APIs, Microservices Architecture

Databases: MongoDB, Prisma, Firebase

Cloud & DevOps: AWS (EC2, S3), CI/CD, Deployment Optimization
